Get ready for your future

How do you find
the job of your dreams?

Get ready for your future

Passion is the difference
between having
a job and having a career

Anonymous

When you consider how much time of your life you spend at work, it is important that you find a job that you are passionate about and that will satisfy you. Research found that some of the most important factors that predict job satisfaction are: finding engaging work, working with people that you like, and finding work that you are good at and that meets your needs.

JvR Academy is offering a workshop that will guide you to match your passion with a job that "fits" you.

OUR WORKSHOP COVERS THREE MAJOR AREAS:

1. Knowing your work-self
2. Understanding your relationship with your co-workers
3. Understanding the world of work

In this workshop you will identify what motivates you, what your interests are, and which abilities and skills you already have and will need in the world of work. You will learn about how to communicate effectively with others, how to be confident at work, and how to expand your professional network.

Throughout the workshop you will encounter practical exercises, such as preparing for a job interview and compiling your own CV, which will reinforce your understanding of the content and make it applicable and relevant to your future in the world of work.

TARGET AUDIENCE:

High school pupils, School leavers and Graduates

WHAT OTHER DELEGATES HAVE SAID ABOUT OUR WORKSHOP:

"Before work readiness I had very little knowledge about the importance of identifying my personality qualities, skills, values and goals. At least now I can see the light."

"This type of workshop should be done annually to help other students who are going to graduate soon."

"It was helpful because now I know what is needed to find for a job."

TO BOOK YOUR SEAT
